Hundreds of AZ Leaders Call for Health, Welfare Funding *Budget Cuts to DES and DHS Threaten Public-Private Partnership*

Phoenix, AZ – More than 450 community leaders from cities and towns across Arizona sent a letter today to Governor Brewer and all 90 state legislators urging them to restore funding to the Department of Economic Security and the Department of Health Services to preserve the public-private partnership for critical human services. The signers are volunteer board members for 60 different nonprofit organizations throughout the state.

With signatures from Bisbee to Kingman, from Sierra Vista to Flagstaff, from Surprise to Mesa, the letter describes how the impacts of state budget cuts reverberate far beyond the state employees and programs immediately affected. The letter points out that the community leaders have made significant investments of time and money in nurturing the privatized social services infrastructure that this state needs. “If the state continues to abandon this investment and withdraw as a partner, we can no longer bring these private dollars to the table. Our entire social services infrastructure will unravel.”

The letter asks the legislature and the Governor to work together on a broader budget plan that protects our fiscal stability and our future. The leaders predict that the consequences of continued budget cuts in human services “will destabilize our work force and our neighborhoods and cause serious harm to business and our economy.”

Children's Action Alliance is a non-profit, non-partisan organization dedicated to promoting the well-being of all of Arizona's children and their families through research, policy development, media campaigns and advocacy. For more information, please visit the CAA website at www.azchildren.org.

April 14, 2009

Dear Arizona Lawmakers:

As volunteer board members of private, non-profit organizations in our state, we are writing to ask you to protect children, seniors, and vulnerable adults and families in the state FY 2010 budget.

We are seeing up close and personal the devastation caused by the state budget cuts to the Department of Economic Security and the Department of Health Services for FY 2009. These dramatic cuts were made with virtually no notice, causing huge fiscal stress in the organizations that we steward. Layoffs of staff and closure of facilities and sites had to happen with no phase-in or up front planning. This has imposed large costs on the nonprofit organizations we lead, and the clients they serve.

As community leaders, we have made significant investments of time and money in nurturing the privatized social services infrastructure that this state needs. Because state budgets have never covered the full cost of service delivery, very large amounts of private dollars have been raised and invested in the most effective services to supplement state dollars. If the state continues to abandon this investment and withdraw as a partner, we can no longer bring these private dollars to the table. Our entire social services infrastructure will unravel.

As both prevention and crisis services dwindle, Arizona will see huge increases in the number of homeless adults and children on the streets and enormous increases in hospital emergency room visits when people have nowhere else to turn. These are consequences that will destabilize our work force and our neighborhoods and cause serious harm to business and our economy.

This is a time when the demand for nonprofit services is shooting up exponentially. Arizona cannot afford to turn away more and more desperate families who have nowhere else to go. We urge you to preserve the public-private partnership for critical human services. We ask you to restore funding to the Department of Economic Security and the Department of Health Services for these services and to work with Governor Brewer to put together a broader plan that protects our fiscal stability and our future.

Sincerely,
